

SAPC-12236  
Copy 2 of 6

10 January 1957

Burt:

Attached is a copy of a memo to me from Jim summarizing technical problems encountered in the use of the Read-Out equipment.

Would you review the stated technical problem and initiate corrective action on existing units and on future production units, as indicated in paragraph B of Jim's memo.

In the event that any particular "fix" involves a major effort would you please communicate with me prior to initiating action. I have in mind major redesign or similar expensive corrective action.

Thanks,

George
